

AUGUST 7, 2017

Dear Neighbors,

Thank you to the Olmos Park Terrace NA, City of San Antonio staff, and my District 1 staff for helping me kick-off the first installment of "Councilman to Community."

Councilman to Community takes a different, boots on the ground approach to solving unique issues impacting your neighborhood. I work to bring City departments like the SAPD S.A.F.F.E. unit, Code Enforcement, Animal Care Services, and Transportation & Capital Improvements (TCI) directly to you in order to help elevate and empower your community.

On Saturday, staff members like ACS Director Heber Lefgren walked and talked with residents about their concerns with stray animals while ACS, Code, and S.A.F.F.E. officers patrolled the area for other code and public safety issues. Residents also received first-hand explanations regarding curbs, sidewalks, and street conditions from a TCI infrastructure expert.

Through Crime Prevention Through Environmental Design (CPTED), I will recruit and establish a neighborhood safety audit team to address public safety, pedestrian mobility, code enforcement, neighborhood improvements, and lighting concerns. The amount of enthusiasm from the neighborhood and City staff on Saturday leads me to believe we are on to something here.

I cannot wait to walk each D1 neighborhood with you in the coming month as District 1 proceeds into a Decade of Neighborhoods. Please contact DeMonte Alexander (Demonte.Alexander@sanantonio.gov) if you would like to learn more about the

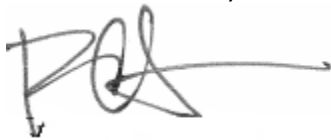

Councilman to Community program.

Please stay safe and dry. I included some helpful links related to flooding and street closures below. Turn around, don't drown.

Yours in service,

Roberto C. Treviño  
City Councilman  
District 1
